7. Psychosocial Support Share this information with family members and neighbours so that together we can fight the disease-knowledge is power.
that together we can fight the disease-knowledge is power.
that together we can fight the disease-knowledge is power.
o. Language component
9. Content (Concept Development) TEACHER INPUT
Tell learners that you are going to write a description of a character you want to describe.
Tell them you choose this person because you know you can clearly describe him/her.
The present tense is going to be used.
Have the following written on the board
-The name of the person
-Her place /village/town
-Two physical characteristics

	10. 1. 6
	-Kind of person
	-What can she/he do?
	METHODOLOGY
	-Pull all the answers given on the board to formulate sentences.
	-Remind learners that Adjectives help a great deal in describing people /things.
	-Teacher then reads the description aloud so that all learners can see the character in their minds.
10. Classwork Activity	Learners listen carefully while the teacher MODELS how to write a description of a character.
11. Homework Activity	Learners can read stories from their literature to see how characters are described.
