

PSRIP Intermediate Phase
COVID-19 MESSAGING

3 April 2020

Good day PSRIP colleagues,
We are now into our second week of lockdown, for some of us, under very difficult circumstances.

A common issue is that children are bored and restless. Try playing different language games with your children to improve their English vocabulary, phonemic and phonological awareness, important literacy skills. Also try to encourage others in your community to play these fun and educational games with their children – this is one way that we will build a more literate society.

Best wishes for the coming week,
The NECT and DBE Team
