

PSRIP Foundation Phase COVID-19 MESSAGING

20 November 2020

### **Descriptive Adjectives**

Descriptive adjectives are used to describe a person, a thing, an animal, or a place. They provide more detail, making it possible to create a picture of what the speaker or writer is talking about. Descriptive adjectives usually express things that are observable through the five senses (touch, taste, sight, smell, and sound). Some examples of descriptive adjectives are ***soft, sweet, beautiful, fruity,*** and ***loud.***

Refer to the Lesson Plans provided on the NECT Website.
