

Hello every one. Today's focus is on the main literary features that will help learners read with meaning and depth. Learners need to know that literary texts can have a **theme, tone and mood**.

**Learners need to know that:**

- **Theme:** Consists of the main topic, subject or message within a narrative.
- **Tone:** The way a writer expresses a subject through word choice. The author's choice of diction and use of imagery creates the tone.
- **Mood:** Is the atmosphere of a narrative created by means of setting, attitudes and descriptions of the author. A feeling is created by the text.

**Ask learners to:**

- Identify the central topic or message within a narrative.
- Identify words that create the mood and tone of a text.
