

PSRIP Foundation Phase COVID-19 MESSAGING

4 December 2020

Sight words

Children need to learn to read some words by sight to achieve fluency. A list of these sight words is sent home with learners every week. Here's how you can help your child practice these words at home:

- Write each sight word on a card.
- Say it, repeating it three times.
- Have your child:
 - repeat it after you, three times.
 - write it out to help learn the spelling too.
 - use it in a sentence and
 - look for these sight words in books or newspapers
