

Hello colleagues. Hope you are all safe and sound indoors. I am Richard Marumani as always. This week we focus on the topic Measurement.

Idea 1: Measurement

- Make the topic more practical for the learners
- Prepare enough teaching and learning resources in time e.g. metre sticks, strings, tap measures, trundle wheels, rulers, scales etc
- Use relevant everyday examples from real life experiences
- Chunk similar concepts together
- Prepare charts /posters with units of measurement for conversions
- Advance lesson preparation is very important.
- Refer to policy document is always recommended for guidelines
- Solve problems in context

“Education is **not the filling** of a pail, but the **lighting of a fire.**” (William Butler)
