To: Subject Advisors, Teachers, Departmental Heads

Topic: Providing access to reading platforms to promote reading schools during the literacy month

Message Objective are to:

- Promote reading in primary schools.
- Maximise reading strategies in primary schools.
- Increase numbers of learners participating in reading activities in schools.
- Promote reading during the literacy month.

As we are still in Literacy month, it is important to have a variety of reading resources to champion reading at schools and in homes. There are two approaches to connect people to reading resources i.e., through accessing hard copies of books and through digital copies.

Accessing hard copies of books

- Borrow books from a local library.
- Borrow books from a better resourced school for a specific time. Then exchange and borrow more books on the same basis.
- All schools will have the Rainbow Workbooks, which contain stories.
- Ask for access to resource storage spaces at schools. You may find old books or textbooks. Pick out interesting stories and non-fiction texts. With the help of the teacher mentor, organise these according to learner levels. You can MAKE THESE FUN to read and listen to by using the strategies and activities described in the previous sections.

Accessing digital copies of books

ZERO-RATED SITES
Xander apps are a resource for young children to expand their mother tongue vocabulary, and to improve language acquisition. https://xander.co.za/
Africa Teen Geeks provides online resources centred around STEM subjects. Africa Teen Geeks caters for all grades, across all provinces. There is a literacy programme that covers English and indigenous South African languages. www.africateengeeks.co.za DBE and 2Enable partnership
DBE and 2Enable partnership online platform provides learners with free access to the 2Enable mobile learning platform. 2Enable provides support through CAPS-aligned text based and video content, with assessment questions. Also available on the platform are readers for primary school learners. https://www.2enable.org/Dashboard.aspx
Vodacom e-School provides Grade 8-12 high school learners who are Vodacom subscribers with free access to curriculum aligned classroom content on their mobile device across all major subjects https://www.vodacom.co.za/vodacom/services/vodacom-e-school
